About This Content

Japan is known for aesthetic mastery when it comes to horror movies and games. Now, you can bring the same dizzying terror to your players with this frightening audio pack!

Whether you want to add just a small spooky vibe to your project, or go all-out to completely terrify your player, The Music Box: Japanese Horror is an excellent starting point. The music themes in this pack range from creepy nostalgia for flashbacks to adrenaline-pumping action for chase scenes. A masterful blend of dissonance and melody will have your player at the edge of their seat. Then sound-effects of eerie laughter, pained screams and groans will push them right over the edge.

Features:

- 20 BGM themes, some of which incorporate sound effects into complex melodies.
- 10 BGS themes, for a more ambient experience.
- 10 ME themes, composed of short music-box loops.
- 72 SE (sound effects), ranging from broken glass and dragging chains to groans and screams.
- .M4A and .OGG formats.

-
- Tested in and formatted for use in RPG Maker MV.

rpg maker mv - the music box japanese horror

Great DLC for soundtrack and soundeffects! There's not that many scary music DLC for RPG Maker MV and this is a good one! Also, if someone could tell me the name or acronym used by the artist, I would really appreciate it. I would like to give him/her the credits for the music in my game!. Purchased this with discount during the 2017 winter sale. It has all the scary/emotional music, ambient sounds, and sound effects I need to make a horror game. Worth every dollar I spent, I highly recommend it.
